Mayor Daley Proclaims Police Week, May 7-13

WHEREAS, the Declaration of Independence states that all men are created equal and that they are endowed by their Creator with unalienable rights of life, liberty, and the pursuit of happiness; and

WHEREAS, to secure these rights govern-

ments are instituted among men; and

WHEREAS, the law enforcement agencies of our nation have the responsibility of assisting in the preservation of these rights; and

WHEREAS, the citizens of Chicago are fortunate to have as defenders of their rights and protectors of their safety, the finest Police Department in this country; and

WHEREAS, it is important that the people of our city know and understand the problems, duties, and responsibilities of their Police De-

partment.

NOW, THEREFORE, I, Richard J. Daley, Mayor of the City of Chicago do hereby proclaim the period of May 7-13, 1972, as POLICE WEEK IN CHICAGO, I urge our citizens to accept this opportunity and pay tribute to the memory of policemen who have died in the line of duty and thereby provide greater understanding and backing of the work of the police.

Dear Sir:

Recently my daughter was brutally assaulted by several youths. Responding to our call for help were Ptlmn. John F. Howe and Thomas E. Boyd, Special Operations Group, Area 2.

They were very courteous and concerned and worked very hard and were able to apprehend one of the boys involved. I would like to thank them.

May you and your Police Department continue to be efficient.

Yours truly, Mrs. E. R.

Dear Sir:

Recently I was the victim of a wallet snatcher. This was reported to the Police Department by phone and within a very short time PtImn. Richard Gruszka, 18th (East Chicago) District, came to investigate.

He was efficient, courteous, calm and patient with me although I was extremely overwrought and nervous.

The next morning Inv. Frank J. Pernice and Sgt. John F. Ryan, C.I.D., Area 6, General Assignment, reviewed the information and followed it up. These two gentlemen were also efficient and courteous.

Although my wallet has not been returned, I felt that my comparatively insignificant loss is receiving the best attention of the Department and wish to thank you on the quality of your representatives.

Sincerely, G. J. N. Dear Sir:

Recently I left my purse on a newsstand in the Steven's Building arcade and did go back for it, backtracking my steps.

I hardly had time to report its loss when I had a call from Marshall Field's saying that security officers from Chas. A. Stevens were trying to reach me.

When I called PtImn. Maurice E. Brown and William Whelehan, 1st (Central) District, I was told they were anxious to return my purse with its contents complete.

I commend your Department, your men, and particularly, Officers Brown and Whelehan, for the dedicated service that you all perform.

> Very truly yours, L. L.

Dear Supt. Conlisk:

We wish to commend the outstanding work demonstrated by two of our security officers, Sgt. Edward McCann, 9th (Deering) District and Inv. David Douma, C.I.D. Area 3, while on duty at our school.

A student who was walking near the school was shot and wounded by an unknown assailant. Sgt. McCann and Officer Douma were summoned to the scene of the assault by other students and quickly called for medical help and then within minutes apprehended the assailant and the gun used in the shooting.

We believe their prompt effective police work prevented serious community and school panic and permitted our school to continue without disruption.

Sincerely yours, D. J. T.

Dear Sir:

I would like to thank and commend Patrolman T. E. Fabino, 20th (Foster Ave.) District, for the assistance he rendered my client and me recently.

He not only was very cooperative and understanding but also demonstrated an acute knowledge of criminal law.

Sincerely, M. P. C. Dear Supt. Conlisk:

I would like to bring to your attention the exceptional perception and subsequent fine police work accomplished by Patrolman John Ward, 11th (Fillmore) District.

Officer Ward, who patrols this area, had occasion to note what appeared to him to be unusual activity in our company parking lot. He observed two individuals carrying packages from our factory employee entrance and placing them in an automobile.

The next morning Officer Ward apprised our management of the incident and provided us with the descriptions and license plates of the car. On the advice of our insurance broker, we retained a National Security Agency and placed two undercover operatives at work.

The subsequent investigation led to the discharge of twelve employees whose signed confessions have created claims against our insurance carrier of almost \$300,000.

If it were not for the diligence and concern of Officer Ward, these individuals would still be in our employ at this time.

Sincerely yours, M. B. S.

Dear Supt. Conlisk:

Recently, during our annual spring registration and our first day of school, Patrolman Nick Mastro, Loop Intersection Control, was assigned to traffic control.

So many of our young students came to me to express favorable comments about Officer Mastro that I felt it would be a disservice to Officer Mastro, personally, and the Police Department, generally, if this unusual circumstance were not called to your attention.

Exceptional in character, personality, intelligence and appearance — these qualities were reflected by Officer Mastro through a quiet sense of authority, strength and natural warmth of personality.

Sincerely yours, E. G.

CHICAGO'S GROWTH as a world port has been enhanced the last three years by a parallel growth of its sophisticated and highly effective cargo security system. The Seaport of Chicago security force is under the direction of the Port Director, Captain Verner J. Soballe, a retired Navy captain who was appointed to the post by Mayor Richard J. Daley.

According to Captain Soballe, "The security provisions presently in effect in Chicago have attracted worldwide attention. Many persons from other ports have either written or visited the Seaport of Chicago to view what is considered to be an outstanding program of cargo protection and security."

Mayor Daley appointed Captain Soballe to be in charge of security on the Chicago waterfront in 1969 after a study revealed that pilferage and theft loss were widespread throughout the Seaport.

Cargo security and protection are important to Chicago and the seaport because each ton of bulk cargo passing through the port facilities brings an estimated \$5 into Chicago's economy and each ton of general cargo brings an estimated \$24. That amounts to several hundred million dollars per year in wages, business profits, stevedoring fees and port-related revenues.

The Mayor entrusted Captain Soballe with the job of establishing and maintaining a system of cargo protection and port security. This system was originally maintained with a force assigned from the Chicago Police Department.

This Detached Service unit is called the Chicago Police Seaport Security

Lt. James Delaney, center, is shown with two of his sergeants, Sgt. Roy Walker, left, and Sgt. Ken Bringe.

Force and has been commanded by Lt. James Delaney since 1970. Currently the manpower of the Section includes Lt. Delaney, ten sergeants, 42 Chicago patrolmen and 26 civilians who are called Chicago Seaport Security Officers. Use of the civilians permitted a like number of patrolmen to return to other essential patrol duties.

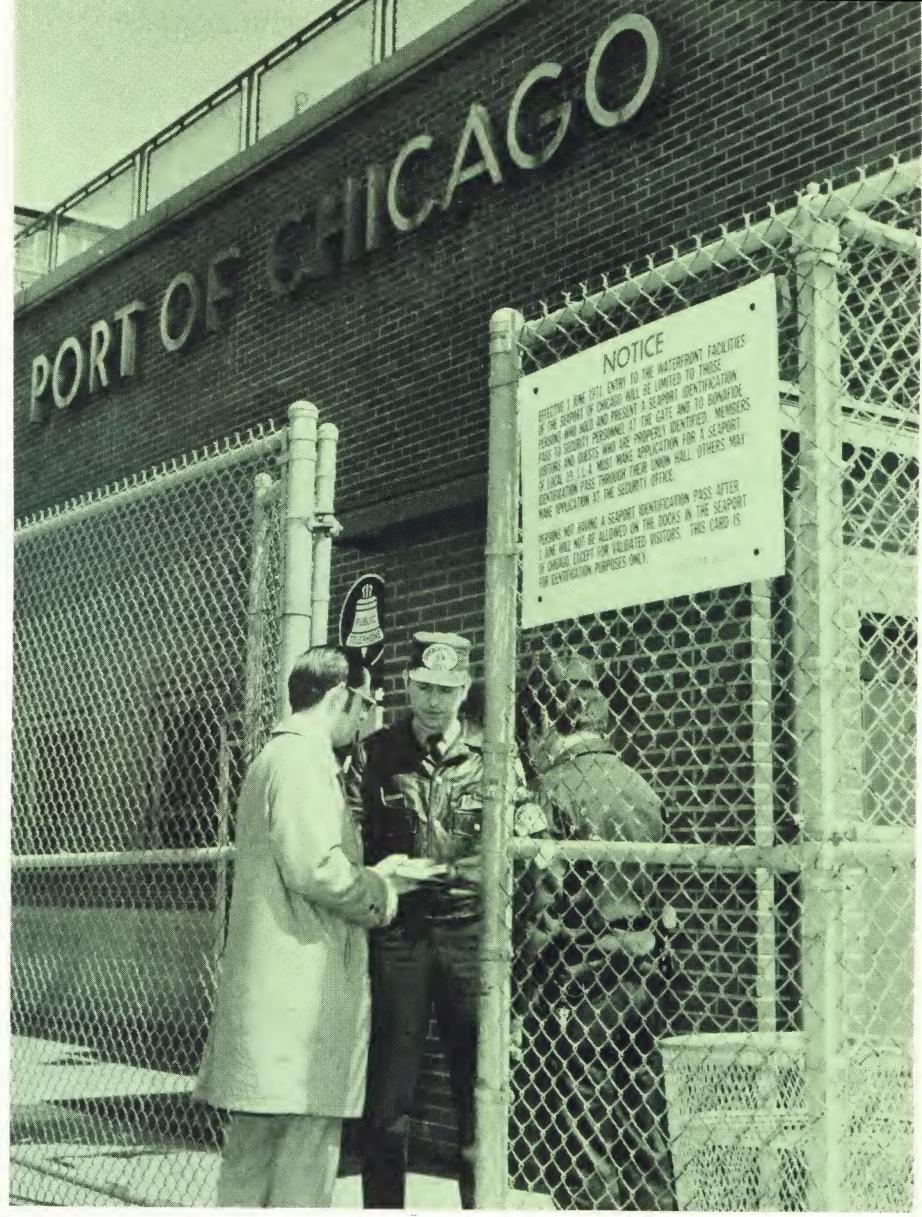

There are three facets to security on Chicago's waterfront. There is the uniformed force; there is an investigative unit consisting of two Chicago police officers; and there is the Cargo Loss Bureau, comprised of nine men, with police and civilians assigned.

The Seaport of Chicago has three major harbors—Navy Pier adjacent to the downtown area of the city on the lakefront; the Calumet River; and Lake Calumet Harbor on the South Side of Chicago. The port offers shippers some 200 piers and wharves for docking.

Navy Pier is owned by the City of Chicago and is leased to private terminal operators. The pier processes general cargo consisting of bag products such as flour and corn meal, machinery and other manufactured products.

Calumet River facilities are privately owned and operated. Lake Calumet Har-

bor facilities are owned by the Chicago Regional Port District and are leased and operated by private concerns. Cargo includes grain, liquid bulk, steel, automobiles, general industrial products and containers.

Although the overseas navigational season runs from about April 1 to December 15, depending upon weather conditions, a large quantity of cargo remains in the seaport transit sheds and warehouses after December 15 and prior to April 1, awaiting pickup or loading. Interlake and river barge traffic is carried on throughout the year. Thus, from a standpoint of security, the season is practically year around.

Security at both harbors begins at the main gates. Every vehicle entering the area must obtain a cargo pass. The driver is required to keep this pass with him while he is in the general cargo handling area. The pass is time-stamped upon arrival; the cargo is recorded; and then the pass is time stamped out and surrendered to the security officer.

Every person entering the cargo handling area is identified with either a gate pass or a permanent identification card. Private vehicles must park outside the compound, or in specifically designated areas. Even freight trains entering and leaving port areas are checked.

Additional precautions are taken to inspect for cargo that arrives already damaged or pilfered on board ship. Chicago is the last port of call for many ships in the Great Lakes, and many cargo losses that occur enroute had in the past been attributed to handling at Chicago's Seaport. A boarding officer inspects all inbound Chicago cargo before a ship begins to unload. This procedure is handled by the Cargo Loss Bureau.

Visual security is an important part of the overall system. Each dock is patrolled in marked squad cars and with radio-equipped three-wheel motorcycles. Cargo areas are under continual surveillance.

It has all paid off, for as Lt. Delaney noted in a recent report, although "there were significant increases in the amount of cargo handling, ship arrivals, truck traffic, passenger vehicle traffic and pedestrian traffic, security was more effective than any preceding year."

"Not a single major crime was reported at Navy Pier or Calumet Harbor in 1971," said Lt. Delaney. Petty thefts and pilferage were considered to be at an all-time low.

But Lt. Delaney stressed that the statistics do not "reflect properly the high

degree of proficiency and sophistication achieved by the Seaport Police." He continued, "members of the Chicago Police Department assigned to the Seaport Security Section have conducted themselves as true professionals in their approach to the job of port security."

The purpose of policing the port is one of trying to do an effective, adequate professional job without impeding the flow of cargo.

In early 1971, an initial group of 16 men, civilians, was selected by the Port Director to be security officers. They attended a three-week formal training course at the Training Division. Funds

for the training were made available by the Illinois Law Enforcement Commission after they had approved a grant application.

Extensive training was given in the use of firearms, port security procedures, rules of evidence, criminal law, first aid, and courses familiarizing men with services provided by cooperating government agencies.

Just recently another 10 men were hired as civilian seaport security officers. Three of the original 16 civilians took the Patrolman's Exam in December 1971.

Enforcement of the newly-formed

Port Registry Identification Program was stepped up through the 1971 shipping season. This identification system requires all persons doing business in/or working regularly on the docks or waterways anywhere within the city limits of Chicago to carry a Port Registry Identification card or Coast Guard Port Security card on his person when on the waterfront. Requests for voluntary compliance were mailed to all shipping terminals, trucking companies, the unions, grain elevators and their employees. There are almost 4,000 persons registered to date.

Continued . . .

A new pass was put into effect in June of 1971 to control the misuse of bogies — container trailers — which had plagued shipping lines in Calumet Harbors.

Now truck drivers desiring to haul 20and 40-foot containers, entering Calumet Harbor with only a tractor are assigned a specific bogie and given a pass by the terminal which must be deposited with the police officer at the Main Gate.

Statistics for arrest activity during 1971 at the two harbors show a 35.8 per cent drop in the number of arrests made by the Port Security Section from arrests made in 1970. In 1970 there were 81 arrests with a conviction rate of 70 per cent while in 1971 there were 52 arrests but with an 88 per cent conviction rate.

The investigative unit made 76 separate investigations during 1971, initiated by the Section as a result of patrol or gate activities or made at the request of the Port Director as a result of complaints received by his office.

The majority of these investigations result in gathering information concerning incidents which occur on the docks and waterways in Chicago; for example, crime, deaths and injuries caused by accidents on the docks, damage to property incidents, and suspected illegal activities peculiar to the marine industry. If needed, arrests are made.

This unit also maintains liaison with other agencies such as the F.B.I., U.S. Customs, U.S. Immigration, Coast Guard, Security Forces at private terminals, terminal management employees, and trucking companies in/and doing business in the Port of Chicago.

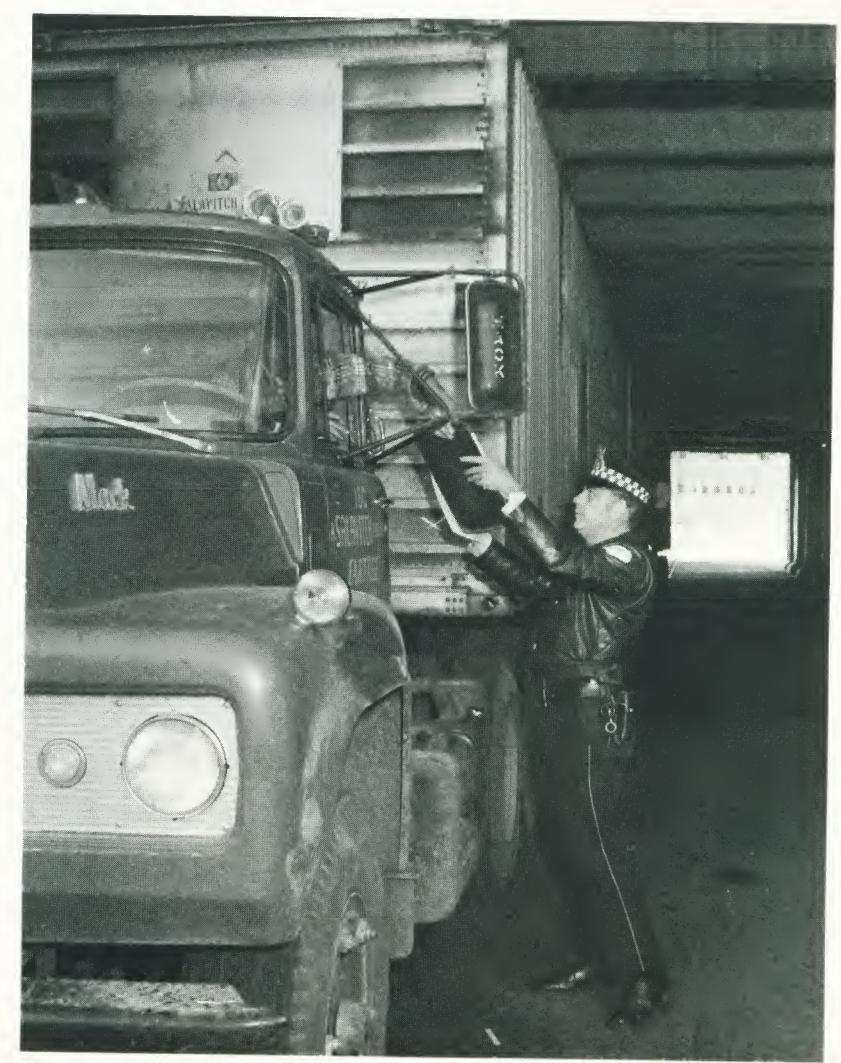

The first commanding officer of the Seaport Security Section was Capt. Victor Vrdolyak. He was awarded a certificate of commendation from the U. S. Treasury Department, Bureau of Customs, for his work in port security.

"The objective of the Chicago Seaport Security Force has been from the outset the establishment and implementation of the most effective professional system of cargo security and protection existent in any seaport anywhere in the world," added Captain Soballe.

He concluded: "The dedication, the untiring efforts and the conscientious attention to duty that Lt. Delaney and the police officers and civilian security officers under his command have demonstrated in the past several months have brought the security force a long way toward accomplishment of its objectives."

THE BIG SHOW IS COMING SOON

BOB HOPE will provide entertainment for this year's Police Recognition Ceremony at 8 p.m., Wednesday, May 10, at the Arie Crown Theatre in McCormick Place.

Traditionally cited at the annual ceremony are policemen who have displayed acts of courage and bravery and, in doing so, are either seriously or fatally wounded. Awards given include the Police Medal, Awards of Valor and Blue Star Awards. They are presented by Superintendent of Police James B. Conlisk, Jr.

Sharing emcee duties will be Irving Kupcinet and Carl Greyson. Music will be provided by Norm Krone and his Orchestra of the Palmer House "by a grant from the Music Performance Trust Funds (Kenneth E. Raine, trustee), a public service organization created and financed by the recording industries and agreements with the American Federation of Musicians. The grant was obtained with the cooperation of Local 10-208, A.F.M."

THE CLASS OF '24

The Chicago Police Department graduated these men from Police School Class A on February 27, 1924. The photo is from the family album of Patrolman Thomas Ahlfeld of the Identification Section. His father-in-law, Anthony Osterkorn, is fifth from the right in the second row. Officer Osterkorn retired ten years ago.

DEPARTMENT COMMENDATIONS

While on patrol, Patrolman Thomas Sailer, Traffic Area 2, exited from an expressway and drove to a gas station. When he reached the driveway, the attendant rushed to his car and told the officer that he had just been robbed by two men.

Officer Sailer instructed the attendant to get in the back seat of his squad car. He then informed the dispatcher of the armed robbery and that he was touring the area with the victim. Subsequently, he observed two men running north. When he approached them, the victim said that they were the offenders. The officer stopped his car and announced to the two men that they were under arrest.

He then called for assistance. Two officers of the 6th District responded and a search of the suspects revealed a revolver and the proceeds of the robbery. The arrestees were charged with armed robbery.

For their initiative, bravery and laudable efforts, Department commendations went to Sgt. Robert Vetrovec and Patrolman Roy Handler, John Pappas and Ronald Blomstrand, all of the 14th (Shakespeare) District.

Shortly after midnight and while leaving the scene of a fire in a building, the above officers observed two other nearby buildings burst into flame. They notified the Communications Center and rushed to the scene.

The officers immediately went into the building where they alerted tenants in the numerous apartments which were all occupied by elderly people. After forcibly entering most of the apartments, the officers physically removed the people who were too frightened to open their doors, and carried them to safety.

As a result of their rescue efforts, Sgt. Vetrovec, and Officers Handler and Pappas were all overcome by smoke inhalation, including several burns on their arms and legs. The three men were hospitalized for several days. Subsequent investigation revealed that the fires resulted from arson.

While assigned to tactical duties, Patrolman Adolph Metoyer and Patrolman Edward Cagney, both of the 18th

(East Chicago) District, responded to a broadcast of "shots fired" at a particular address. Anticipating that the offenders might flee south of the given location, the officers parked their vehicle just south of the area, where they observed three youths running toward a building. The officers then separated and concealed themselves in both entrances to the building.

The three suspects entered the courtyard east of the building. One of them held a sawed-off shotgun in his hands. The officers emerged from their positions and ordered the youth to drop his weapon. Instead, he fired at Officer Metoyer who was standing directly in front of him. Officers Metoyer and Cagney then fired simultaneously at the offender who immediately dropped his weapon and surrendered. Later, the other two offenders were apprehended by assisting units.

Patrolmen Jerry Hedberg and John Waitman of the 5th (Kensington) District were stopped by a citizen who stated that two armed men were holding up a food store.

Officer Waitman immediately notified the Communications Center while Officer Hedberg removed the shotgun from the trunk. The two officers then ran across the street to the scene of the robbery. One offender appeared at the door with his arm around the throat of a female employee and held a cocked revolver to her head. He shouted to stay back or he would blow her head off.

In an effort to save the woman's life, the officers stopped advancing. Officer Waitman then positioned himself in front of the store and next to a car while Officer Hedberg remained in full view of the offender a few feet from the entrance.

Suddenly, the first offender and his hostage disappeared behind a shelf and were replaced by the second offender who also held a gun to the head of his hostage, the store manager.

At this time, the second offender told Officer Hedberg to get back or he would kill him. The store manager slumped to the ground and attempted to crawl out of range. The offender, pointing his revolver at the hostage, unexpectedly turned and pointed his

weapon at Hedberg, who fired once striking him. Simultaneously, Officer Waitman fired his revolver and the offender fell, fatally wounded.

The other offender ran from the rear of the building, leaving his hostage in the alley. He was apprehended moments later by 5th District officers who responded to Officer Waitman's call for help. The entire proceeds of the robbery were recovered without injury to any innocent citizens.

While Inv. Edward Sheridan, Criminal Investigation Division, Area 1 — General Assignments, was on a tour of Area 3, he observed smoke coming from an attic window of a two-story building.

After notifying the Communications Center, Investigator Sheridan rushed to the second floor where he found a young girl holding an infant in her arms. Three other children less than four years old were clinging to her clothing. The investigator led the five youngsters to safety while he warned the other occupants of the building to evacuate. He managed to overcome a language barrier in his rescue efforts.

When he heard someone shout that a small boy was on the first floor rear, Inv. Sheridan forced the door and was still searching in the smoke-filled rooms when the Chicago Fire Department arrived. The investigator was given oxygen because of smoke inhalation.

While assigned to the Bureau of Operational Services as a driver for Assistant Deputy Superintendent Howard M. Pierson, Patrolman Kenneth Baker answered a radio call of a demented man barricaded at a particular address. Officer Baker pleaded unsuccessfully with the man for more than an hour to leave the building. The man's mother and two priests also tried to convince him to leave the premises, but to no avail.

Suddenly, the man attempted to flee out the side entrance of a gangway, where Officer Baker and other officers were stationed to protect a large number of people who had gathered at the scene.

When the fleeing man saw Officer Baker, he swung at him with an axe, cutting two of the officer's fingers and striking him on the right side of his head. Despite his injuries, Officer Baker held on to the offender until he was assisted in placing him under arrest.

Bulava

Pevitts

Tkoletz

While on patrol, assigned to a mission in the 11th District, Patrolman Gary Bulava and Patrolman Kenneth Young, of the Special Operations Group, Area 4, observed a suspicious man loitering in the rear of a vacant building.

The officers immediately entered the alley to investigate and upon seeing the policemen, the man started to walk away. As he was walking, Officer Bulava left his vehicle and ordered him to halt but he failed to comply.

Displaying great courage, Officer Bulava approached the suspect as the latter reached into his pocket and pointed a revolver at the officer. A struggle ensued and as Officer Bulava attempted to force the offender's gun hand downward, he sustained a gunshot wound in the left thigh. Officer Bulava fell to the ground, but returned the fire striking the offender in the chest.

Simultaneously, Officer Young fired at the offender, seriously wounding him. Within minutes, Officer Bulava was transported to a hospital where he received emergency treatment for his wound and the offender was taken to another hospital where he was pronounced dead.

Patrolman Ronald Pevitts and Steve Tkoletz, 11th (Fillmore) District, observed a man holding a gun to the head of a gas station attendant. The officers drove past until they were out of sight of the service station office in order not to alert the offender.

They stopped their vehicle and quickly returned on foot to a vantage point where they could observe what was occurring. They saw the gunman reach into the victim's shirt pocket and remove what appeared to be currency. The offender then went to the cash register and removed money from it.

Realizing they might endanger the life of the victim if they confronted the gunman in the office, they positioned themselves outside, covering all avenues of escape, and waited.

When the offender left the station, the officers announced their office and ordered him to drop his weapon and surrender. He surrendered and was charged with armed robbery. Proceeds of the robbery and the weapon used were promptly recovered.

An inside view of the Driver Trainer Simulator unit shows the 12 consoles and the computer unit in the rear.

Driver Trainer Simulator

ONE OF THE most modern teaching facilities at the Chicago Police Training Academy is a \$36,000 Driver Trainer Simulator which permits the instructors to improve the driving skills of police recruits and to enhance their power of concentration.

During their 39 weeks of training, the recruits receive 12 hours of training in this facility which is located to the rear of the training academy. The unit is constructed of steel and is outfitted with 12 consoles. It is heated during the cold months and air conditioned during summer heat.

Each console simulates the operational part of a real car with lights, steering wheel, directional signals, accelerator and brakes. There is a seat belt that must be fastened to turn out a red warning light and a key turns on the ignition to a motor-like sound.

All consoles are hooked up to a main computer console which gauges the reaction of each man to various driving situations. The consoles face a screen. The instructor shows one of 11 films on

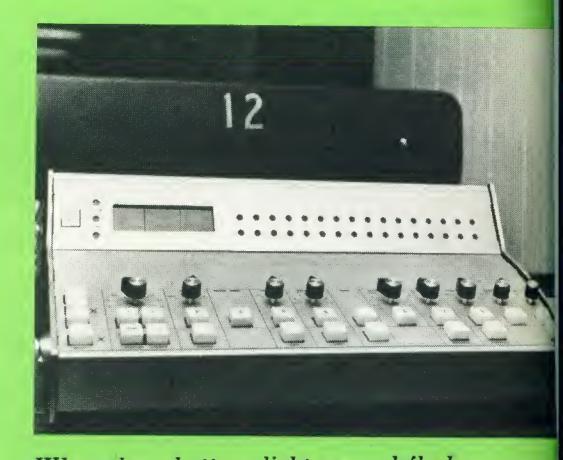

the screen and each student must operate his "car" according to the film situations. A beginning film has the student copying the actions of a car ahead of him, then a car which he can see the hood of and then films in which he just sees road conditions and reacts to them.

For instance, the student must stop for a light, slow down for a car that is parking, move over into a left turning lane. The films instruct the students what to do.

Sgt. Dan Scalia, one of the instructors, said that common mistakes made by drivers during the course include forgetting to turn on directional lights and having too slow a reaction to braking.

During the course, Sgt. Scalia always lets the recruits have a chance to sit back with him at the console controls to see how the computer catches drivers making mistakes.

The men learn that anticipating what will happen next in a driving situation can avoid many potential small acci-

dents, such as those in parking.

According to Director Robert Mc-Cann of the Training Division, the Chicago Police Department believes that work with the Driver Trainer Simulator will help future police officers cut down on potential accidents. Also, since the driver of a police vehicle is a professional driver, he should set an example for the general public in good driving practices both on and off duty.

The Department stresses that emergencies do not permit a police officer to operate a vehicle at speeds which endanger other persons. A Training Bulletin states that "it is always better to lose a violator in a congested traffic area than to risk lives." It continues: "When in pursuit of a known or suspected offender, always weigh the risks involved against the nature of the of-

fense which caused the pursuit. Terminate the pursuit when you feel that the risks outweigh the desirability of apprehension."

The kind of skill which is enhanced by instruction in the Driver Trainer Simulator is summed up in another Bulletin: "A professional driver must at all times have his car under control and must anticipate accident situations and avoid them. Mere obedience to the law or being in the right is not sufficient to excuse a professional driver for involvement in an accident. It is expected that he will exercise more than ordinary care and skill in preventing an accident."

The Chicago Police Department is very concerned about good driving habits and during the last year has been including good driving tips in various issues of the Daily Bulletin, read by all police officers.

Several of these tips follow: "An improper seating position, which encourages an awkward grip on the steering wheel, can cost several seconds in a driving emergency—when lost moments can be fatal" and "Riding the brake by resting your foot on the brake pedal when not intending to brake can cause abnormally high brake temperature, excessive lining wear and possible damage to the brakes . . . End result, brake failure and an accident. Use your right foot only for braking and accelerating."

Ever since the Driver Trainer Simulator course was instituted at the Training Academy, Sgt. Scalia stated that driving records of the men have improved considerably and the number of accidents has been decreased.

POLICE CATCH BITER DOG

ONE EVENING in mid-March, a man called the 10th (Marquette) District station to report that his nine-year-old son had just been bitten by a dog while the boy was riding his bike in Lawndale Park.

As the police continued to get additional information, the cars in the district were given a description of the dog. Beat cars working the area in and around the park were on the lookout for the animal.

For the next two days police kept on the alert for the dog while Rickey Contreras and his parents, Mr. and Mrs. Manuel Contreras, waited. Police and parents knew that if the dog was not caught soon, Rickey would be facing a series of painful rabies shot.

During those 48 hours, police spotted the dog but were unable to catch it. On the morning of the third day, Patrolman Susano Garcia and his partner, Patrolman David Ryeczyk, were passing by the park when they spotted the large German Shepherd.

Garcia told Ryeczyk to stay behind the car. It took him about 30 minutes to get the dog to come near him. He patted its head for a moment, then wrapped his other arm around the mid-section of the animal. "As I picked him up, he was able to move his head and he bit me," said Garcia. While he still held the dog, Ryeczyk rushed up with a pole with the noose on the end and got the noose around the dog's neck.

They then took the animal to the Animal Care Section where it was held under observation for 10 days.

Officer Garcia was bitten on the left arm. The wound required stitches. Garcia commented that he and his wife have five children and that one of their boys is about Rickey's age. He was not going to let go of the dog even when it bit through his leather jacket.

After 10 days, word came from the Animal Care Shelter that the dog was not rabid.

Wisconsin Police Recruits Are Visitors

Recent visitors to the Chicago Police Department was this group of Dane County Sheriff's police recruits from near Madison, Wis. As a part of their recruit training, they participated in a ride-along program in various districts and Special Operations Group areas throughout Chicago with Chicago police officers.

They also toured police headquarters through the arrangements of Director Richard Sheehy of the Public and Internal Information Division (seated, center). To the left of him is Captain Don Harless who was in charge of the recruit group.

Nabs Burglar

APPRENTICE POLICEMAN Glen McGuire of the 5th (Kensington) District recently aided District patrolmen in the arrest of a burglary offender.

McGuire summoned police after he caught one of three offenders who broke into a laundromat via the rear door. McGuire said he lives above the laundromat and when he came downstairs, two of the offenders fled through the front door.

Law Seminar Held

A TWO-DAY SEMINAR on Arrest, Search, and Seizure was held April 14-15 by the Institute for Criminal Justice at Grover M. Hermann Hall, 3241 S. Federal St., on the Illinois Institute of Technology campus.

The seminar was restricted to persons in the field of law enforcement and refamiliarized officers with the basic but ever-changing laws of arrest, search and seizure also bringing them up to date on recent court decisions.

Speakers included law professors, judges, experienced prosecutors and defense attorneys. However, the seminar was not merely academic as speakers described the application of the law to the on-the-street duties of the law enforcement officer.
